

NURTURING MINDS

The Elsewhere Experience

A world beyond the familiar.

FOUNDING PARTNER PROSPECTUS
FIRST EDITION · 2026

01

Growth happens through experience.

Nurturing Minds is a personal-development platform built on one belief: people grow through meaningful experiences, creativity and real human connection.

The Elsewhere Experience is our first product, an in-person gathering that brings entertainment, creative expression and reflection into one room.

The idea is simple. When people step outside their familiar surroundings, they see themselves, other people and life differently.

We are now inviting organisations to join us as **founding partners** of the first edition.

An invitation to pause, explore, connect and see differently.

About Nurturing Minds

We create experiences that help people understand themselves, discover new perspectives and build real relationships.

We go beyond conventional personal-development formats. Music, art, conversation, nature, culture and leisure all open the door to discovery.

Purpose, compassion, gratitude and growth guide everything we build. Each experience is made to be enjoyable first, with room left for reflection.

02

An afternoon-to-evening gathering of at least 200 people.

The Elsewhere Experience is a curated, in-person event where entertainment and personal development happen together, naturally.

Participants step out of routine and into a space designed to feel welcoming and stimulating. The moments that matter come from a conversation, a creative encounter, a shared laugh or an unexpected perspective, not from a lecture.

THE FIRST EDITION

Music, artistic expression, interactive activities, facilitated conversations and moments of reflection, designed as one connected experience.

We are building it for curious, open-minded people: students, young professionals, entrepreneurs and creatives, along with anyone drawn to personal development, culture and connection.

Programme, venue and date are being finalised. Audience research will shape the final programme.

03

The first edition is the best moment to join.

Founding partners gain what later partners cannot: the chance to help define the experience from the start.

01

Founding position

Be part of the launch of a new platform from day one, and stay associated with it as it grows.

02

A direct line to a young, curious audience

Meet students, young professionals, entrepreneurs and creatives face to face, not through a screen.

03

Brand association that means something

Link your name with creativity, wellbeing, culture and personal growth, values that resonate with this audience.

04

Engagement, not passive visibility

An in-person setting where people take part and talk, so your brand is experienced, not scrolled past.

05

A voice in shaping it

Early partners influence how the experience takes form, including how their brand fits into it.

06

A foundation for the future

A first-edition partnership is the natural starting point for taking part in future editions.

Built around what your organisation wants to achieve.

We do not offer a fixed package. We shape each partnership with the organisation involved, whether that means financial support, an in-kind contribution, programme collaboration or a combination.

1 **Introduction**

We present the concept in full and hear what matters to your organisation.

2 **Alignment**

We identify where your goals and the experience meet.

3 **Agreement**

We agree the partnership and your role in the first edition.

Programme, venue, date and partnership terms will be confirmed with each partner. Nothing here is a confirmed arrangement until it is agreed in writing.

Join us at the beginning.

The first edition happens once. We invite your organisation to be part of it from the start.

Get in touch and we will walk you through the concept and what partnership can look like for you.
